At Sea

Deck 13 has 2 pools, the one open air pool is for smoking. I try to avoid this deck and deck 7 where they have a cigar lounge. Even though they try to keep the doors closed to the lounge the smoke still seeps out into the hall. The really strange thing is they have yoga and all the health exercise classes on the smoking desk by the pool exposing all those people trying to be healthy to second hand smoke.

On the same level but back toward the aft of the ship is a covered indoor pool, and lots of places to sit around the pool. I'm not sure if the roof opens up.

At Sea

All the way forward on deck 13 is the spa and gym. All the exercise equipment, steam room, sauna's, massage rooms, juice bar and if you need a hair cut etc.

All the way aft is the Buffet-Cafeteria, it is huge both on the port and starboard side of the ship and even aft with seating on the fan tail.
