If you don't have a computer you can rent theirs and they seem to work fine all the time.

L'Ametista Lounge
One night before dinner they had a singles night, all people traveling alone were invited. Evidently there are more than I thought, there are about 250 people and 9 out of 10 are women. I found out that there are two couples from Florida and one couple from Boston. Not many people from America. About 70% are French Passengers.
