Mindelo Island of Capo Verde

Mindelo is a port city of Sao Vicente, an island in the volcanic archipelago of Cap Verde. It's know for its music, nightlife and lively, Brazilian-influenced Carnival celebrations. Colorful colonial houses line the shores of Porto Grande harbor, which is set against a backdrop of rugged mountains.

I hired a Taxi for 1 hour to give me a tour of the city, not a clean city and very few people seem to take pride in their property, I felt very uncomfortable and there seemed to be a lot of unemployment. I met a couple also on the way to the gate and they took a picture of me and the ship in the background. It was a very windy day, but nice sunny day.
