City in the North Island, New Zealand

Auckland, based around 2 large harbours, is a major city in the north of New Zealand's North Island. In the centre, the iconic Sky Tower has views of Viaduct Harbour, which is full of superyachts and lined with bars and cafes. Auckland Domain, the city's oldest park, is based around an extinct volcano and home to the formal Wintergardens. Near Downtown, Mission Bay Beach has a seaside promenade. — Google

Because of the weather that we have been experiencing at sea the last few day we arrived late in Auckland, New Zealand all our excursions were canceled. We were scheduled to arrive at 9:00am and did not arrive till 5:00pm and could not go ashore till 6:00pm. I did go ashore for a few hours then it started to get dark so I went back to the ship. We leave at 9:00pm and head to Tauranga, New Zealand, and should arrive there tomorrow at 8:00am.
